

ARSHAD SHAFIK SHAIKH

B.Tech AI & ML Student | Founder, TASKAS | Full-Stack & AI Product Builder

Pune, Maharashtra, India | +91 91129 36409 | shaikharshad92316@gmail.com

LinkedIn | GitHub | Portfolio

SUMMARY

B.Tech AI/ML student and founder of TASKAS, a digital-solutions startup with 50+ customers and 4L+ revenue. Builds full-stack and AI-integrated products end-to-end — from LLM-backed assistants to 3D interactive applications — with hands-on experience in computer vision, backend architecture, and mobile development.

EDUCATION

Zeal College of Engineering and Research, Narhe

Pune, Maharashtra

B.Tech, Artificial Intelligence and Machine Learning

Affiliated to Savitribai Phule Pune University

2024– Expected 2028 | CGPA: 8.45/10

EXPERIENCE

TASKAS — Founder

Jan 2026 – Present

Pune, India

- Founded and run a digital-solutions startup delivering software, web, AI, and automation products to clients.
- Grew the business to **50+ customers, 6 partnerships, and 4L+ revenue** by owning product, engineering, and client relationships end-to-end.
- Ship products from requirements through UI/UX, implementation, deployment, and support.

Sun Fibo Technology — Software Engineer Intern

Jun–Jul 2025

Vadgaon BK, Pune

- Built a person-detection pipeline using **YOLOv8 and Roboflow**, handling dataset annotation, model training, and evaluation.
- Contributed to a **Text-to-CAD** system converting natural-language descriptions into CAD outputs.

Earth5R — Content Writer Intern

2025

- Wrote and edited content supporting Earth5R's communication and outreach initiatives.

PROJECTS

NOOR — AI-Powered Assistant

Python, FastAPI, LLM APIs, SQLite, PostgreSQL

- Built a modular backend connecting an LLM layer to tools, services, and persistent storage for natural-language task execution.
- Implemented asynchronous task handling for reliable, context-aware workflows.
- GitHub: github.com/arshadengine/Noor

Immersive 3D AI Classroom

React, Three.js, React Three Fiber, OpenAI API, Gemini API, Web Speech API

- Built a browser-based 3D virtual classroom with an interactive AI teacher avatar, voice I/O, and dynamic content generation.
- Combined online AI responses with an offline knowledge fallback for uninterrupted use.
- GitHub: github.com/arshadengine/3D-ai-school-threejs

Ridezy — EV Ride-Hailing App (Concept)

React Native, Node.js, Express.js, JWT, Google Maps API

- Designed and built an EV-bike ride-hailing mobile app concept, covering UI/UX, frontend, and backend APIs.
- Explored partnerships with EV/mobility providers to validate the concept.

Taleem Gym — Gym Management System

React, Firebase, Cloud Firestore

- Built a full-stack system for member, membership, payment, and attendance management via a centralized dashboard.
- Used Firebase Auth and Firestore for authentication and real-time data persistence.
- GitHub: github.com/arshadengine/taleem-gym (private — access on request)

SKILLS

Core: Python, JavaScript, C++, SQL

Frontend: React.js, Next.js, React Native, Tailwind CSS

Backend: Node.js, Express.js, FastAPI, REST APIs

AI/ML: LLM APIs (OpenAI, Gemini), YOLOv8, Roboflow, Scikit-learn, Pandas, NumPy

Data: PostgreSQL, MySQL, Firebase/Firestore

Tools: Git, Figma, Vite, Android Studio

LEADERSHIP & ACHIEVEMENTS

- Class Representative**, Zeal College of Engineering and Research (2025–2026)
- Smart India Hackathon 2026** — Selected for PS 25082 (NATPAC travel-data mobile app); designed the app's offline-first architecture and tech stack.
- Smart India Hackathon 2025** — Selected for PS 25102 (AI-based dropout prediction system); contributed to solution development and presentation.

CERTIFICATIONS

- Google Skills** — 46 completion badges, including *Gemini for Data Scientists and Analysts* and *Implement CI/CD Pipelines on Google Cloud*.
- Sun Fibo Technology** — Software Engineer Internship Certificate (2025)
- Earth5R** — Content Writer Internship Certificate (2025)
